Stronger Than All

HammerFall

Always standing proud, we know our time has come marching off to war, the crusade has just begun Fighting for the right to live under the sun we won't stop 'til they've lost and we've won

Come and fly with us, together as one we belong This magic of metal unites us, it's making us strong

Like an arrow we strike - STRONGER THAN ALL heavy metal troops on the rise
Like an arrow of might - STRONGER THAN ALL
We'll walk through fire, we're true to ourselves and our lives

History commits the oath to deal in steel Warriors of the Faith, to no living soul we kneel Born into the fold, the Templars are for real no one will ever bring us to heel

Come and fly with us, together as one we belong this magic of metal unites us, it's making us strong

Like an arrow we strike - STRONGER THAN ALL shooting through the air at full speed
Like an arrow of might - STRONGER THAN ALL
in the name of metal, defending our hopes and beliefs

The past and the present unites in us all, we stand up for our beliefs
The way of the Templars is here once again, forever they will be free

Like an arrow we strike - STRONGER THAN ALL heavy metal troops on the rise
Like an arrow of might - STRONGER THAN ALL
We'll walk through fire, we're true to ourselves

Like an arrow we strike - STRONGER THAN ALL shooting through the air at full speed
Like an arrow of might - STRONGER THAN ALL
in the name of metal, defending our hopes and beliefs
