

# We're Gonna Make It

HammerFall

Been fighting for so long don't know which way up is  
Been stuck and ripped and burnt till it feels like nothing  
Our time will come and when it's over and it's done  
Those fools are gonna know that we ain't bluffin'

We're gonna make it  
We'll reach the top  
We're gonna make it  
And then we're never gonna stop

The power of the people ain't been showing  
It's never what you know, it's who you're knowing  
Sure it ain't right but as the saying goes it's might  
That decides who stays behind and who'll be going

We're gonna make it  
We'll reach the top  
We're gonna make it  
And then we're never gonna stop

We're gonna make it  
We'll reach the top  
We're gonna make it  
And then we're never gonna stop

Alright, alright, we're gonna make it  
Come on, boys, come on, boys  
Ain't gonna stop until we drop  
Oh, oh  
Let it rock, let it roll  
Ha ha ha ha ha ha  
Here we go, baby
