

We're Gonna Make It

HammerFall

Been fighting for so long don't know which way up is
Been stuck and ripped and burnt till it feels like nothing
Our time will come and when it's over and it's done
Those fools are gonna know that we ain't bluffin'

We're gonna make it
We'll reach the top
We're gonna make it
And then we're never gonna stop

The power of the people ain't been showing
It's never what you know, it's who you're knowing
Sure it ain't right but as the saying goes it's might
That decides who stays behind and who'll be going

We're gonna make it
We'll reach the top
We're gonna make it
And then we're never gonna stop

We're gonna make it
We'll reach the top
We're gonna make it
And then we're never gonna stop

Alright, alright, we're gonna make it
Come on, boys, come on, boys
Ain't gonna stop until we drop
Oh, oh
Let it rock, let it roll
Ha ha ha ha ha ha
Here we go, baby
