

# Always Looking Down

## Hammers of Misfortune

Walking 'round  
Eyes upon the ground  
For something might be found  
Always looking down  
Look around  
It's one big lost and found  
So I'm always looking down  
Eyes upon the ground

[Chorus:]  
Fearlessness is careless unless  
You've got nothing left to lose  
Or leave behind  
Your noblesse oblige  
Is neither wise nor kind  
Casual indifference is  
My rational self interest  
I'm your shadow now  
And what is yours is mine

Worms we live like  
In the dirt  
For worms we have become  
Thin and on the run  
We the parasites  
Will always follow you  
We'll never be untrue  
For what else can we do?

Rats we live like  
In the wells  
Or hiding underground  
Fearful of the sound  
Those who fly  
Own the sky  
But they're always looking down  
Eyes upon the ground

[Chorus]
