

Sinking Inside Yourself

Hammock

Every time you wake up Too gone to see

Every time you come down So far from me From me...

Next time when you wake up You're lost at sea

I just watch you sink down You fade away from me From me...

Where do you go When the life slips from your eyes?

I'll never know Why you smiled and waved goodbye, Goodbye...

Where do you go When the life slips from your eyes?

I'll never know Why you smiled and waved goodbye, Goodbye...
