

Need

Hana Pestle

I'm not quite sure how to breathe without you here
I'm not quite sure if I'm ready to say goodbye to all
we were
Be with me
Stay with me
Just for now
Let the time decide
When I won't need you

My hand searches for your hand
In a dark room
I can't find you
Help me
Are you looking for me?

Can I feel anyone?
Lie to me, I'm fading
I can't drop you
Tell me, I don't need you

My hand searches for your hand
In a dark room
I can't find you
Help me
Are you looking for me?

Etch this into my brain for me
Tell me, how it's supposed to be
Where everything will go
And how I'll be without you by my side

My hand searches for your hand
In a dark room
I can't find you
Help me
Are you looking for me?

My hand searches for your hand
In a dark room
I can't find you
Help me
Are you looking for me?
