

## Need

Hana Pestle

I'm not quite sure how to breathe without you here  
I'm not quite sure if I'm ready to say goodbye to all  
we were  
Be with me  
Stay with me  
Just for now  
Let the time decide  
When I won't need you

My hand searches for your hand  
In a dark room  
I can't find you  
Help me  
Are you looking for me?

Can I feel anyone?  
Lie to me, I'm fading  
I can't drop you  
Tell me, I don't need you

My hand searches for your hand  
In a dark room  
I can't find you  
Help me  
Are you looking for me?

Etch this into my brain for me  
Tell me, how it's supposed to be  
Where everything will go  
And how I'll be without you by my side

My hand searches for your hand  
In a dark room  
I can't find you  
Help me  
Are you looking for me?

My hand searches for your hand  
In a dark room  
I can't find you  
Help me  
Are you looking for me?
