

What Makes Things

Hana Pestle

We're killing each other we have rationalizations
We all wanna get even
Yet we all wanna believe that we're innocent
We kindly obey the rules
Yet they leave and we really see
You know we're not really what we seem

What makes things break up like they do
What makes things break up like they do
What makes things break up like they do

Just because they live across the ocean
doesn't mean they're a different kind of animal
Sure we love a lot of ourselves
But can't you see, can't you see
That's what we're scared of

What makes things break up like they do
What makes things break up like they do
What makes things break up like they do

We make things break
And we do hate
And we do not forgive
But it's in all of us, all of us, all of us

so...

What makes things break up like they do
What makes things break up like they do
What makes things break up like they do
What makes things break up like they do
What makes things break up like they do
