

Fingers Crossed

Handguns

Is it sad that
I look forward
to when you hug me goodbye,
because it's the only time
That I get to hold your body close to mine.

So I'll hold my breath, cross my fingers
and try to get through to you.
Hold my breath, cross my fingers
and drive the whole night through.

I know how, how you feel, I feel the same way too,
but I know that, that you hide it better than I do.

So I'll hold my breath, cross my fingers
because I just want to be with you.
Hold my breath, cross my fingers
because I will always love you.
