

Where I Belong

Handguns

What the hell was I thinking?
That I'd be alright by upping and leaving
What the hell was I thinking?
I bailed out on all of the songs I believed in

Searching for the answer
To where I went wrong
Finally found it was me all along
And he liked the clarity inside of this melody
Now I know where I belong
This is where I belong

What the hell was I thinking?
That I'd be alright by upping and leaving
I spent 4 months broken and shut down
It's a job's worth question to turn it all around

And where I went wrong
Finally found it was me all along

Now I know where I belong
This is where I belong
This is where I belong
This is where we belong
