

# Sunshine

## Handsome Boy Modeling School

"Everybody used to think of him as..  
well more like a bum, sort of, a musical bum..  
than anything else"

Your love, is my sanity  
Your love, brings me sunshine  
I like what you do to me  
I like what you give to me  
I wander through this world  
Needing you so much  
I wander through this world  
Dreaming of your touch

If I could see you again..  
If I could just see you again..

Forget about your sorrows  
Forget about your heartache  
Life is nothing but a shadow  
("Ooooh-weeee man!")  
Forget about your worries  
Forget about the bad times  
Life is nothing but a shadow..  
("Ooooh-weeee man!") ..without your sunshine

Everybody's been wondering where you been  
and, now that we know what happened  
We're all wondering where you are  
And even though we feel bad we won't be seein you around anymore  
We want you to know we feel better, we won't have to worry anymore

There's a new star, in the night sky  
Could it be you, making me so high  
Shine on, shine on, shine on, shine on  
Shine on and on and on and on and on..

If I could see you again..  
If I could just see you again..

Forget about your sorrows  
Forget about your heartache  
Life is nothing but a shadow  
("Ooooh-weeee man!")  
Forget about your worries  
Forget about the bad times  
Life is nothing but a shadow..  
("Ooooh-weeee man!") ..without your sunshine

We know your only worry now is,  
you worrying about us worrying about you  
And even though we stopped worrying,  
it doesn't we're not still sad  
And we're happy to let you know that, we always will be

I used to think time, was on my side  
I used to think the world, could be so kind  
That was another day..

That was another time..

If I could see you again..

If I could just see you again..

Forget about your sorrows

Forget about your heartache

Life is nothing but a shadow

("Ooooh-weeeee man!")

Forget about your worries

Forget about the bad times

Life is nothing but a shadow..

("Ooooh-weeeee man!") ..without your sunshine
