Captivity (A House with a Thousand Rooms)

Just tell me that was not real I am afraid to say I was hoping to see you one more time I don't care if you are losing the control I just care for myself

Safe in my own words Learning with myself Realize the way

I don't care if you are losing the control Watch yourself burn again

Help me - Don't make me sleep alone Save me - Please try to understand Don't cross the line Where my love is dying No matter what they say Help me - I feel my love is dying No matter what they say Don't cross the line

I don't care if you are losing the control I just care for myself

Help me - Don't make me sleep alone Save me - Please try to understand Don't cross the line Where my love is dying No matter what they say Help me - I feel my love is dying No matter what they say Don't cross the line
