

## Legions of Fate

Hangar

It's the year two thousand and ninety  
Beyond the stars  
There are so bad creatures living  
Creatures from the dark  
Then I had a vision, maybe  
Devastation comes down  
And Earth needs some hope  
Aliens coming to fight  
Legions of fate  
Go to the battle  
Forces arise, destroying  
The aliens from the stars  
They walk among us now  
And you don't see  
They stole our strength, you can't feel  
We fell in disgrace  
Something has to be done  
Before it's too late  
And Earth needs some hope  
Aliens coming to fight  
Legions of fate  
Go to the battle  
Forces arise, destroying  
The aliens from the stars  
Many years ago there was  
A people that was guided  
By a serpent strong and clever  
Running its way of fire  
She dominated the knowledge  
To fight creatures of the dark  
Help us now  
Life goes on...  
Forces arise, destroying  
The aliens from the stars
