

Luck Of My Life

Hank Green

I've come across a lot of ten dollar bills in my time
In swimming pools and taxi seats, in ATMs and on the beach
Finding free money is something I can do
But when I think about my luck I only think of you

Yeah, sure, when I go downtown I find a perfect parking spot
Okay, I guessed the right answers on my tests a lot
And yeah, when I fell out of that cypress tree I didn't die
But you, my girl, are the luck of my life
Yeah you, my girl, are the luck of my life

Once, we met this guy on the way to a punk rock show
And we helped him with some boxes even though we didn't know
That he was with the band, and he got us in free
But the only reason I felt lucky is you were there with me

Yeah, sure, that light turned green before I hit the break
Okay, no one notices half of the mistakes I make
And yeah, when I ate that rat poison I didn't die
But you, my girl, are the luck of my life
Yeah you, my girl, are the luck of my life

Oh yeah, ten thousand people watch me online each week
Okay, no one's ever had a cooler job than me
But one day one girl said that she'd be my wife
And that day was the luckiest of my life

Yeah you, my girl, are the luck of my life
