

Queen Ranavalona I

Hank Green

Throughout history, killers found a way
To gather enough power to put millions in their graves

Henry just focused on his wives
While Hitler's war took 70 million lives

But I've got to wonder if those guys were worse
Than Queen Ranavalona the First
Oh Ranavalona, Ranavalona, Ranavalona the First

They call her the Mad Queen of Madagascar
She'll sell you into slavery, she'll boil you in tar
She'll dress you up in bloody animal skins and set the dogs on
you
A third of her nation died under her rule

If ever the the reign of a woman was cursed
It was Queen Ranavalona the First

Ranavalona, Ranavalona, Ranavalona the First
