

# One Step Ahead Of My Past

Hank Locklin

The love that I've waited and longed for is here in my arms at last  
But she doesn't know all about me I'm just one step ahead of my past  
Now I'm walking the old straight and narrow but yesterday's coming up fast

'Cause you can't keep people from talking I'm just one step ahead of my past  
'Cause when I played at love I made my mistakes where everyone could see  
Now I'm wondering if she'll understand is always haunting me

Will the news break the heart of my darling  
And close the door to my future at last  
Till the day she knows all about me I'm one step ahead of my past
