

Other Side Of The Door

Hank Locklin

When we say goodnight I leave my hope I leave my dreams I leave
my heart
On the other side of the door with you my love
On the other side of the door with you my love
Walking home alone where are the stars where is the moon where
is my world
On the other side of the door with you my love
On the other side of the door with you my love
My arms don't wanna go my lips just long to stay
And all my heart can hardly wait until our wedding day
Then I'll have the right to spend my hours to spend my years to
spend my life
On the other side of the door with you my love
On the other side of the door with you my love
