

## Who Can I Count On

Hank Locklin

Who can I count on if I can't count on you I never counted on y  
ou makin' me blue  
They say you're running round with somebody new  
Who can I count on if I can't count on you  
I thought I held the precious key to heaven  
Your love was sweet and gentle at the start  
But now I feel that I can't go on living if living means that w  
e must live apart  
Who can I count on if I can't count on you  
There goes my happiness and here comes the blues  
I can't convince myself that we're really through  
Who can I count on if I can't count on you  
The door to happiness was almost opened just one more step or t  
wo and I'd be in  
And all at once the vows you made were broken  
The door to happiness was closed again  
Who can I count on...
