Blossoms In The Springtime

Hank Snow

When I see blossoms in the springtime I know that sweetheart time is here My love that blossoms in the springtime Blooms in my heart through all the year

I love the blossoms in the springtime Kissed by the sunshine and the rain I love to hold you, oh my darlin' When kisses bloom in sweetheart's lane

Sometimes a spark of love may smoulder Never to flame all winter long Then like the blossoms in the springtime Burst with the first red robin's song

I love the blossoms in the springtime Kissed by the sunshine and the rain I love to hold you, oh my darlin' When kisses bloom in sweetheart's lane
