

I Knew That We'd Meet Again

Hank Snow

Though we said goodbye and we drifted far apart
I knew that we'd meet again
Though you left my arms you never left my heart
I knew that we'd meet again

The lover's lane was not the same with someone new
How could lover's lane be same without you
Here we are together prayers were not in vain
I knew that we'd meet again

One word was spoken and now our two hearts they were broken
Our love had all gone astray
That old pride do a courtin' but honey you know I was certain
That we'd meet again some sunny day

True love may sever though it will ever live on in memory
And though honey we were parted and so broken hearted
I knew someday you'd come back to me
The lover's lane was not the same....
