

## It's You Only You That I Love

Hank Snow

We met in the garden of roses  
One night when the moon was new  
We kissed as the breeze whispered through the trees  
I love you, I love only you.

You're as sweet as the dew on the roses  
True as the new moon above  
Forever and ever my darling  
It's you, only you that I love.

We promised to meet in the garden again  
When the moon was new  
But they came between all our hopes and dreams  
The heaven was lonely for you.

Now I walk alone in the garden  
Each night when the moon is new  
And I cry as the breeze whispers through the trees  
I love you, I love only you.

My tears make the dew on the roses  
Blue as the new moon above  
Forever and ever my darling  
It's you, only you that I love...
