

Grass Looks Greener Over Yonder

Hank Thompson

The grass looks greener over yonder
You've got a brand new love affair
And at your door, temptations pointin' yonder
The grass looks greener over there

That look in your eyes is kinda distant
That love light in your eyes is hard to find
Here, of late your kisses seem resistant
I think I know what's on your mind

The grass looks greener over yonder
You've got a brand new love affair
And at your door, temptations pointin' yonder
The grass looks greener over there

The grass looks greener over yonder
You've got a brand new love affair
And at your door, temptations pointin' yonder
The grass looks greener over there
