## **Just A Little While**

## **Hank Thompson**

Oh tonight each happy moment that I ever spent with you Brightens up my memories of the past
Then I remember that dark moment when we said our last goodbye To a love we knew could never last

Just a little while just a little while
Just a little while ago when love was new
Our romance now has faded but there's nothing I'd have traded
For the precious little while of loving you

With your picture here before me I pretend that you're still mi ne

And I still can hear you say I love you so And the time that seems just like a million years since I lost you

Was really just a little while ago Just a little while
