

Me & My Friends

Hank Williams III

I'm all messed up and drivin around town
Well my old trick, well she done had to kick my ass out
Now I'm raisin hell and lookin for a light
Livin fast and dyin young is the new style of life

Me and my friends we like livin on the run
Just because we're wild I guess they don't like where we come from
Hell we all like to get drunk and fall down all over town
And you know each damn day that we're livin we're damn right and rebel proud

Well the wind keeps gettin colder but I never let that hold me back
I done the best that I could do to keep my life on track
Now I'm countin out quarters and tryin to buy some beer
And it's so god damn lonely since you're not here

Me and my friends we like livin on the run
Just because we're wild I guess they don't like where we come from
Hell we all like to get drunk and fall down all over town
And you know each damn day that we're livin we're damn right and rebel proud

You know that every damn day that we're livin we're damn right and rebel proud
