

All the Roads

Hank Williams Jr.

I'm gonna keep all the roads open to my heart
Just in case you ever wanna come back this way sweetheart
Yea, the gate will be open and the door unlocked
So bring your horse and cart
'Cause I'm gonna keep all the roads open to my heart

Like a snowstorm in Montana
Don't ever cut yourself off
Or you heart will freeze to death
And you'll stumble through life lost
So I'm gonna keep the trail open for you to come rescue me
But I'm not gonna stay here freezing
I'm gonna plow ahead you see

I'm gonna keep all the roads open to my heart
Just in case you ever wanna come back this way sweetheart
Yea, the gate will be open and the door unlocked
So bring your horse and cart
'Cause I'm gonna keep all the roads open to my heart

When a man's cold and lonely, he's gotta stay warm
And I got a gal or two to help me through the storm
If you ever want to get rid of your snowman
And you wanna come back to me
I'll be waiting in my cave like a hungry grizzly

I'm gonna keep all the roads open to my heart
Just in case you ever wanna come back this way sweetheart
Yea, the gate will be open and the door unlocked
So bring your horse and cart
'Cause I'm gonna keep all the roads open to my heart, Woo

Well all my road work finally paid off 'cause today I got a call
Baby let's meet like we use to
Hey baby let's have a ball
Said a new highwayman left her
Now she's out in the cold
And I'm gonna jump on my dog sled
And get us back on the right road

I'm gonna keep all the roads open to my heart
Just in case you ever wanna come back this way sweetheart
Yea, the gate will be open and the door unlocked
So bring your horse and cart
'Cause I'm gonna keep all the roads open to my heart

I'm gonna keep all the roads open to my heart
Right this way sweetheart
