

High and Pressurized

Hank Williams Jr.

It don't take long to get there if you're high and pressurized
It ain't very far from nowhere if you're high and pressurized
And you'll do a better show there if you're high and pressurize
d
And the only way to go there is high and pressurized

Now I used to ride in buses and I hated every mile
Cause travelin' in a Greyhound ain't ridin' in style
Cause the damn thing's always broke down and the tires'll all go
flat
I've always been against bussin' cause bussin' ain't where it's
at

It don't take long to get there if you're high and pressurized.
..

Now I used to invite ladies for a grand tour of the bus
But I'd look down the hallway and there'd be fifteen more of us
That's just one of the problems with a hillbilly bus
But I'm a sophisticated singer now and a member of the mile high
club

And it don't take long to get there if you're high and pressurized...
It don't take long to get there if you're high and pressurized.
..
