

# I Really Did

Hank Williams Jr.

You found out I've been cheatin'  
And then you left, you had a good reason  
But I never meant to do anything to ever hurt you  
And that ain't no lie this is the truth

Baby I loved you, I really did  
And when I whispered I need you, I meant what I said  
But now you don't want me around and Lord that's got me down  
'Cause baby I loved you, I really did

I found out, lately you've been cheatin' too  
And I doubt if it's hurtin' me like it's hurtin' you  
Now you know how it feels to make love that ain't real  
And if we ever try again I'm sure, we'd be closer now than then

Baby I loved you, I really did  
And when I whispered I need you, I meant every word I said  
I didn't wanna tie you down, I just wanted to be around  
'Cause baby I loved you, I really did  
'Cause baby I loved you, I really did
