

It Just Don't Get It No More

Hank Williams Jr.

I woke up with a busted head
I could hardly get myself out of bed
Got in this morning half past four
And It just don't get it no more

I don't remember much about last night
But I do know that I got in a fight
Somebody introduced my nose to the floor
Oh it just don't get it no more

But I like to party like to dance to a song
Once I get started I don't wanna go home
Not until the break of dawn

I guess I'll have to change my life
Try to straighten up and act right
But there's something about a Saturday night
I know I'm gonna wanna do it some more

I guess I'm gonna have to change my style
Try to keep a low profile
Cause this laying out and runnin' wild
Hey it just don't get it no more
I said it just don't get it no more
