It Just Don't Get It No More

Hank Williams Jr.

I woke up with a busted head I could hardly get myself out of bed Got in this morning half past four And It just don't get it no more

I don't remember much about last night But I do know that I got in a fight Somebody introduced my nose to the floor Oh it just don't get it no more

But I like to party like to dance to a song Once I get started I don't wanna go home Not until the break of dawn

I guess I'll have to change my life Try to straighten up and act right But there's something about a Saturday night I know I'm gonna wanna do it some more

I guess I'm gonna have to change my style Try to keep a low profile Cause this laying out and runnin' wild Hey it just don't get it no more I said it just don't get it no more
