

# Just Enough to Get in Trouble

Hank Williams Jr.

I've been down my share of  
Country roads, boulevards and interstates  
I kinda know my way around  
A little 'bout a lot of things  
I know what the cards say  
Sometimes the hard way, it looks so easy

My curiosity always gets me in a ditch  
What really happens if you turn  
That knob or flip that switch  
Something I shouldn't do  
Why, you already knew  
That's all been taught to me

I know just enough to get in trouble  
And that's just enough to understand  
That the more I know, the more I'm sure  
Someday it's gonna do me in

Yeah, when my time comes  
And I'm dead and gone  
Let 'em put it on my tombstone  
He knew just enough to get in trouble  
But not enough to leave it alone

They got a book somewhere  
On everything a woman wants  
'Bout how and when and where  
And why they will and why they won't  
That's complicated stuff  
And when it comes to love, I'm still learning

I know just enough to get in trouble  
And that's just enough to understand  
That the more I know, the more I'm sure  
Someday it's gonna do me in

Yeah, when my time comes  
And I'm dead and gone  
Let 'em write it on my tombstone  
He knew just enough to get in trouble  
But not enough to leave it alone

Waylon always told me  
?Son, everybody makes mistakes?  
And how come it's always me  
Standing there when something breaks?

Yeah, I know just enough to get in trouble  
And that's just enough to understand  
That the more I know, the more I'm sure  
Someday it's gonna do me in

Yeah, when my time comes  
And I'm dead and gone  
Let 'em write it on my tombstone  
Here lies just enough to get in trouble

But not enough to leave it alone  
He knew just enough to get in trouble  
But not quite enough to leave it alone
