

## Salt Lake City

Hank Williams Jr.

Sun's up better get up and make the rounds  
All alone on my own here in this old town of Salt Lake City  
Gotta find work forget the hurt and how she put me down  
For a man who didn't care but with fast talk and curly hair  
He took her from me and Salt Lake City

Night has come day is done but there's no job to be found in Salt Lake City  
Room's cold no one to hold so I'll just walk around  
And think of all the times that she said that she loved me  
But that's just a mem'ry in Salt Lake City  
I should pack my things and go but my heart keeps saying no  
Some day she'll come back to me and Salt Lake City
