

## The Pressure Is On

Hank Williams Jr.

I got someone at home, don't know whats going on  
Thinks I love her and her alone and the pressure is on  
I got a new love you see, she does new things to me  
We sneak our love you's on the phone and the pressure is on

And it puts pressure on a man if he ever lets his heart call hi  
s hand

He ain't no rolling stone, but the pressure is on  
Feel like your ten thousand feet down under the sea  
And its crushing all your bones and the pressure is on

The trains I ride in my dreams  
Run on the pressure of the steam  
Lord, I could pull one a mile long 'cause the pressure is on  
Lord, I could pull one a mile long 'cause the pressure is on  
The pressure is on, the pressure at home
