

# Disturbing the Brain

Hanker

All of my life  
I've been tracked by that fear so strong  
Every night  
Keeps haunting me till I can't go on

That's no life  
Having to face a world so unreal  
Every night  
Watching the thread of my life unreel

They won't believe me  
'Cause they did not see  
And I live that nightmare  
On my own

Disturbing the brain  
Awaking in my mind  
Devils from the confusion road  
Feel the stress  
I'm scared and I'm chilled to the bone

They won't believe me  
'Cause they did not see  
And I live that nightmare  
On my own

The won't believe me  
'Cause they did not see  
And I live that nightmare  
On my own

Disturbing the brain
