

# United We Stand, Divided We Fall

Hanker

People of the land claim that they care  
They just keep on screaming about kings  
But many of us try reaching for the stairs  
To the throne and rule over all earthlings

We had better get along  
Together we'll be so strong

Though masters of the land swear that they care  
Like puppeteers they excel at pullin' strings  
But any simple man goes sayin' rulers beware!  
He who lives by the sword dies agonizing

We had better get along  
Together we'll be so strong

United we stand  
Divided we fall  
United we stand  
Divided we fall

United-Divided  
United-Divided  
United-Divided  
United-Divided  
We fall!

All of us we have to really care  
Though we're different we all live for the same thing  
Don't you feel something good's in the air  
Instead of crying, raise your fist and sing!

We had better get along  
Together we'll be so strong  
People just got to hold on  
United we can't go wrong

United we stand  
Divided we fall  
United we stand  
Divided we fall  
We won't fall!
