Ejected

Hanna Pakarinen

I was the last to know that I'm out You left me without warning You were so fast walking around I couldn't escape from falling

Now torn apart with a broken heart Don't know what to believe in

I press rewind and find
I'm ejected
This thing called love doesn't play
any more
Erased out of my mind
I'm ejected
Please stop and give me what we
had before

I gave you my life; you took it all Foolishly freewheeling You hit the knife and made me fall You should've told me you're leaving

Now torn apart, with a broken heart I'm left alone and dying

I press rewind and find
I'm ejected
This thing called love doesn't play
any more
Erased out of my mind
I'm ejected
Please stop and give me what we
had before

Don't wanna be ejected Don't wanna be ejected Don't wanna be ejected Don't wanna be ejected

I press rewind and find
I'm ejected
This thing called love doesn't play
any more
Erased out of my mind
I'm ejected
Please stop and give me what we
had before

I press rewind and find
I'm ejected
This thing called love doesn't play
any more
Erased out of my mind
I'm ejected

Please stop and give me what we had before
