

# One Way Or Another

Hanna Pakarinen

Look out, here I come  
No doubt, you're on the run  
Give in to me, you won't regret it

Hold on, watch your back  
It's too late, you're in my net  
I'll tug you in, you won't regret it

One way or the other, I'll make you mine  
I won't stop, c'mon let's cross the line

It's time, to come around  
Control and now you're losing it  
What makes you tick, You know I got it

One way or the other, I'll make you mine  
I won't stop, c'mon let's cross the line  
One way or the other, I'll make you see  
I won't stop, c'mon boy stick with me

I'll hold you and I'll comfort you  
Don't try to fight it, don't let your fears hold you back

Look out, hold on, feel it, just  
Look out, hold on, feel it, just  
Give in to me, you won't regret it

One way or the other, I'll make you mine  
I won't stop, c'mon let's cross the line  
One way or the other, I'll make you see  
I won't stop, c'mon boy stick with me
