

One Way Or Another

Hanna Pakarinen

Look out, here I come
No doubt, you're on the run
Give in to me, you won't regret it

Hold on, watch your back
It's too late, you're in my net
I'll tug you in, you won't regret it

One way or the other, I'll make you mine
I won't stop, c'mon let's cross the line

It's time, to come around
Control and now you're losing it
What makes you tick, You know I got it

One way or the other, I'll make you mine
I won't stop, c'mon let's cross the line
One way or the other, I'll make you see
I won't stop, c'mon boy stick with me

I'll hold you and I'll comfort you
Don't try to fight it, don't let your fears hold you back

Look out, hold on, feel it, just
Look out, hold on, feel it, just
Give in to me, you won't regret it

One way or the other, I'll make you mine
I won't stop, c'mon let's cross the line
One way or the other, I'll make you see
I won't stop, c'mon boy stick with me
