One Way Or Another

Hanna Pakarinen

Look out, here I come No doubt, you're on the run Give in to me, you won't regret it

Hold on, watch your back
It's too late, you're in my net
I'll tug you in, you won't regret it

One way or the other, I'll make you mine I won't stop, c'mon let's cross the line

It's time, to come around Control and now you're losing it What makes you tick, You know I got it

One way or the other, I'll make you mine I won't stop, c'mon let's cross the line One way or the other, I'll make you see I won't stop, c'mon boy stick with me

I'll hold you and I'll comfort you Don't try to fight it, don't let you fears hold you back

Look out, hold on, feel it, just Look out, hold on, feel it, just Give in to me, you won't regret it

One way or the other, I'll make you mine I won't stop, c'mon let's cross the line One way or the other, I'll make you see I won't stop, c'mon boy stick with me
