

Rescue Me

Hanna Pakarinen

As the days pass me by
Seem they just keep getting longer
At first it was fun to be free
Thought it made me stronger

The sun is setting now
Everything's up and down
My world is spinning round 180

I guess I'm missing you
It's been long overdue
So now nothing feels the same

I should've known, should've known better
That to give back your heart so easily
and now you're gone
Hear me I'm calling
Baby, come back and rescue me

I think of you over and over
Gotta break free of this misery
Cause now you're gone
Hear me I'm calling
Baby, please

And when the days at end
I can't pretend any longer
I think where you've been who you've seen
I can't help but wonder

Do you still think of me
I'm treading carefully
My world is spinning around 180

I should've known, should've known better
That to give back your heart so easily
and now you're gone
Hear me I'm calling
Baby, come back and rescue me

Rescue me, rescue me

I should've known, should've known better
That to give back your heart so easily
and now you're gone
Hear me I'm calling
Baby, come back and rescue me
