

Je T'aime

Hannah Fury

So you think you want that little girl, do you?
I'll string her up and I'll bring her to you
You think I don't know what love is
But you've just never known love like this

Je t'aime
I do know love
Je t'aime
I do know you

But you, you think you want that pretty girl, don't you?
I could befriend her and talk to her for you
You think you just want that perfect girl, don't you?
I could be so much better for you

Je t'aime
I do know love
Je t'aime
I do know you

I do know you

Mirror, mirror on the wall
You don't want to mess around with me at all
Mirror, mirror on the wall
Let me in and I'll break you into shards
I'll break you, just you wait, you
