

I Want You

Hanoi Rocks

Oh, hold on, we're gonna make this a big one
I'm checking out my native city
I can feel the blood in my veins
And my nerves are weak and my heart is just
About to, to collapse
Oh, I'm kind of desperate, something must happen
I'll leave for a chance right now
And I'll leave for a rock 'n' roll ride
So come on, don't stop
I want you, it's too fast, yea
I want you, I'm feelin' just fine
I want you, to kill this pressure
It's getting much too high
You asked me how long I've played electric guitar
And you asked for my autograph
And you asked if I mix up my whiskey with water
I tell you be sure
I am kind of desperate, something must happen
I'll leave for a chance right now
And I'll leave for a rock 'n' roll ride
So come on, don't stop, so come on
I want you, it's too fast, yea
I want you, I'm feelin' just fine
I want you, to kill this pressure
It's getting much too high
I want you, it's too fast now
I want you, feelin' just fine
I want you, to kill this pressure
It's getting much too high, much too high
I want you, it's too fast, yea
I want you, feelin' just fine
I want you, to kill this pressure
It's getting much too high, much too high, hang on
