

## Mental Beat

Hanoi Rocks

The beat is getting stronger  
I can't take it any longer  
Every time I go to sleep, I wake up to this beat  
Inside of me

You can't ignore this beat  
You have to get up on your dancing feet  
You will have no time to eat  
The beat is so much stronger than me  
Oh, yes, it is

I observe and I learn  
Today I have been reversed  
And it seems to me, now, like I'm the center of the universe

People ask me if I'm going insane  
But I say it's just this missile in my vein  
It comes on hard; there's no stop, no start  
And it kicks so strong, the kick goes on  
Over and over till you can't belong  
It's an endless song  
One, two, three, it goes on

Ooo, mental beat  
Ooo, mental beat

Your hero's just a zero  
And you're just another weirdo  
It comes on like a bomber  
A long distance drummer  
If you can't hear the beat, you must be deaf

Hanoi Rocks has got the beat  
Boy, they never seem to sleep  
And the only explanation  
Is that there is no protection  
Against the mental beat

So let's go
