

## No Law or Order

Hanoi Rocks

Police brutalities scaring up the nation  
Juvenile delinquents spread fear in the central station  
There's no law or order  
law or order maybe it's total control  
Oh, I don't know  
But they can bend it and shape it and a little bit break it  
To make it easier to follow

Criminal activities late at nite in the subway  
Newspaper headlines all across the nation  
There's no law or order  
law or order, everything's out of control  
Well I don't know  
But they can bend it and shape it and a little bit break it  
To make it easier to follow

(spoken:) Hey Johnny! Where are you going with that gun in your  
hand  
Don't you understand, they'll just kick you down  
to the floor  
They won't give you another chance, you're all alone  
And they're a million, they'll just lock you in  
For evermore, y'know  
The only choice you got, boys, is to be nasty  
Hate everybody and everybody will hate you  
You can bet on that!  
You know, You can't fight the justice but  
the justice can fight you, even if it wasn't you  
it's you, Johnny.

There's no law or order  
There's no law or order  
There's no law or order anymore

But they can bend it and shape it and a little bit break it  
To make it easier to follow  
Yes they can bend it and shape it and a little bit break it  
The rules cannot be hollowed

There's no law or order  
There's no law or order  
There's no law or order anymore
