

# Obscured

Hanoi Rocks

I love my freedom  
And speaking out of my mind  
I can see how that could get somebody down  
Tho' you can't always see them  
You can feel their vicious vibes  
They somehow seem to find their way around

And you'll never see me fail  
And you can't make me disappear

Been obscured by too much darkness  
Overcome with so much sadness  
But I'm still shining bright as ever

Nobody can touch me  
It's a universal law  
My kind of spirit just can't be controlled  
I can only win  
Even if I lose  
I always find out something I can use

No use tryin' to stop me now  
To overshadow me somehow

Been obscured by too much darkness  
Overcome with so much sadness  
But I'm still shining bright as ever

The best kept secret in rock 'n' roll  
Harder they come harder they fall  
They couldn't mess with my gang  
Can't suss our lingo and our slang  
They couldn't mess with my gang  
My gang's a rock 'n' roll band

Been obscured by too much darkness  
Overcome with so much sadness  
But I'm still shining bright as ever
