

## Lonely Days & Lonely Nights

Hans Theessink

Lonely days and lonely nights  
Life's been full of misery  
I've been crying, crying, crying  
Since you walked out on me  
Woman, one day you will know  
You gotta reap what you sow  
I've been watching you baby  
Tears in my eyes  
See you laughing pretty woman  
But some day you'll be crying  
You just wait and see  
Someone will hurt you like you're hurting me  
You've been messing with my heart  
Now you're tearing me apart  
You've been twisting me around  
Put me up and put me down  
All you wanted was a toy  
A dancing puppet on a string  
Used me for your fun and joy  
Then you dropped me just like nothing  
One day, you just wait and see  
Someone will treat you like you treated me  
You've been messing with my heart  
Now you're tearing me apart  
You've been twisting me around  
Put me up and put me down  
Lonely days and lonely nights  
You've been messing with my heart  
Now you're tearing me apart  
You've been twisting me around  
Put me up and put me down
