

# The Planet

Hans Theessink

Hard times behind us  
Hard times ahead  
It's a miracle we're still living  
It's a wonder we ain't dead  
I read it in the paper  
Heard it on the news  
This old world's in trouble  
People, we're all chased by the blues

The planet still keeps turning  
Draws a circle 'round the sun  
Seasons come and seasons go  
What's been done  
Can't be made undone

Mother earth is bleeding  
She got scars upon her face  
She gave us what we needed  
We left her in disgrace  
Tore away her skin  
Dug down into her soul  
Mister Greed keeps digging

He's digging far too low

The planet still keeps turning  
Draws a circle 'round the sun  
Seasons come and seasons go  
What's been done  
Can't be made undone

Fires of hate are burning  
They're burning everywhere  
Man mistreats his fellow-men  
We turn our head, don't seem to care  
But one day before long  
We got to change our ways  
Start living like we're meant to  
Rainbow race

The planet still keeps turning  
Draws a circle 'round the sun  
Seasons come and seasons go  
What's been done  
Can't be made undone
