

# I Was Born

Hanson

I was born to do something  
No one's ever done, no one's ever done before  
I was born to go somewhere  
No one's ever gone, no one's ever gone before, oh

A slice of the moon is my patch of green  
I don't want a ticket to the same routine  
I want to see the sights unseen  
I want the extraordinary  
Everybody's waking to the same clock  
I could never be another chip off the block

'Cause I was born to do something  
No one's ever done, no one's ever done before  
I was born to go somewhere  
No one's ever gone, no one's ever gone before  
I was born to be someone  
No one's ever been, no one's ever been before, oh

Don't need a map, I can't be directed  
I've got a madness, don't need the method  
My heart is a weapon and my mind's electric  
I'll shock the world when you least expect it  
Everybody's betting on the big guy  
But don't underestimate the sting of the butterfly, oh

'Cause I was born to do something  
No one's ever done, no one's ever done before  
I was born to go somewhere  
No one's ever gone, no one's ever gone before  
I was born to be someone  
No one's ever been, no one's ever been before  
Before

There's a road out in front of me  
Nobody can see  
I'm paving it as I go  
Gonna take it wherever it leads  
'Cause I want to be somewhere no one has been before

I was born to do  
I was born to go  
I was born to be  
Someone, oh

And I was born to do something  
No one's ever done, no one's ever done before  
I was born to go somewhere  
No one's ever gone, no one's ever gone before  
I was born to be someone  
No one's ever been

I was born to do  
I was born to go  
I was born to be someone  
No one's ever been, no one's ever been before
