

# Misery

Hanson

This time I won't take it back  
'Cause something's coming to you  
This time I'm going to breathe a breath  
Walking on down the road

I can never promise that you'll never be lonely  
But as long as we're together it can always only be

Misery

Last night I got off the fence  
'Cause I won't be the fool  
On this side the grass is greener than  
The garden that I used to grow  
I'm walking on down the road

I can never promise that you'll never be lonely  
But as long as we're together it can always only be

Misery

Misery, Misery

I can never promise that you'll never be lonely  
But as long as we're together it can always only be
