

Watch Over Me

Hanson

She wakes and takes her place in line
And never bothers to ask why the mirror sheds no light at all
The days turn into lesser days until there's only night
The light it wouldn't help she's too far gone

Her time is up it's five o'clock
It never stops

And she says please, and she says please
And she says please, watch over me

I watch her slowly make her way
Down on a road she shouldn't take
She always ends where she began

The years go by, they're adding up
She clicks her heels but she's still stuck
She's giving in but won't give up she'll never stop

And she says please, and she says please
And she says please, watch over me
And she says please, and she is,
On her knees and she begs and she pleads

Na na na na na na na na
Na na na na na na na na
Na na na na na na na na
Na na na na na na na na

She counts the time 'til her heart breaks
Just waiting for her next mistake

And I said please, and she says please
And she says please, watch over me

On her knees and she begs and she pleads she says
Please, and she says please and she says please watch over me

She counts the time 'til her heart breaks
Just waiting for her next mistake
Don't give up i know you've stopped believing
And you're down and you're begging you're pleading
Don't give up cause you're not too far gone
