

# You Never Know

Hanson

Whoa Whoa Whoa  
You don't know

Whoa Whoa Whoa  
Whoa Whoa  
You don't know

You walk around and baby, there's something your missing  
Hallucinations happen in your head  
This look your giving me is not a look for kissin  
Something I did or maybe something I said

You never know baby, you never know baby  
You never know baby, you never know  
You judge us all by the lie that was told, baby  
You never know baby, you never know

Yeah

Whoa Whoa  
You don't know

I speak these words, but baby you don't even listen  
These things I say just going through your head (going through your head)  
I've got my gun, but I'm low on ammunition  
I'm like a book that is waiting to be read

Do you ever wonder  
Don't you ever wonder baby  
Who's spell your under  
Don't you ever wonder, baby  
Do you ever wonder  
Don't you ever wonder, baby  
We've got your number  
Don't you ever wonder

You never know  
Do you ever know (do you ever know)  
Oh Oh Oh Oh  
Oh Oh Oh Oh  
Oh Oh  
Whoa Oh  
Whoa Oh

You don't know  
Whoa, what's the source of all this  
Baby, you've been dishin'  
Could they be lies, that maybe you've fed (that you fed)  
Consider well the kind of stream where you've been fishn'  
I'm like a book that's waiting to be read

(solo)

Baby you never know

Whoa Whoa Whoa

You never know (you don't know)

Whoa Whoa Whoa

Whoa Whoa, you don't know
